## Closed incompressible surfaces of genus two in 3-bridge knot complements

小沢 誠 (駒澤大学文学部自然科学教室)

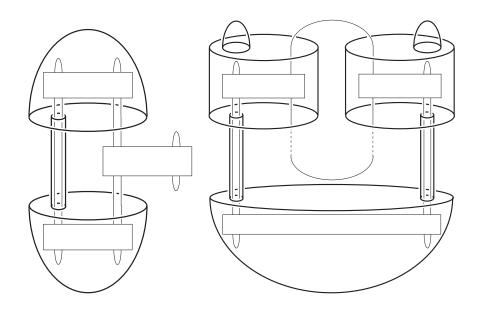

定理  $.K\subset S^3$  を 3 橋結び目とし、 $F\subset S^3-K$  を種数 2 の圧縮不可能な閉曲面とする。F を可能な限りメリディアン的圧縮をすると、以下の曲面のいずれかになる。

🗵 1: Closed incompressible and meridionally incompressible surface of genus two

🗵 2: Closed incompressible and meridionally incompressible surface of genus one

 $\ensuremath{\boxtimes}$  3: Closed incompressible and meridionally incompressible surface of genus zero
